canfield connector

Versatile Connectors Eliminate Field Wiring, Provide Rapid Installation

Canfield Connector's new Series 5FFAC and 5JFAC all molded solenoid valve connectors combine the affordable 5F and 5J with their rugged round connectors in a completely molded plug and play design, providing rapid installation and eliminating the need to field wire.

Both of these versatile connectors feature bi-directional indicator lights and load suppression, an ambient temperature rating of -25° to 80°C, and are environmental protection designed to IP 67/NEMA 6 standards.

Available in DIN sizes, to round sizes 8mm straight, 12mm straight and 90°, the low profile straight line configuration allows for installation in many limited space applications. The durable 5FFAC and 5JFAC also are available in UL and CSA versions.

Canfield Connector's Series 5FFAC and 5JFAC are manufactured in the USA to ISO 9001:2000 with design specifications to the highest quality standards.
