CANFIELD CONNECTOR INTRODUCES CAN-PAK QUICK SHIP BULK PACKS TO SERVE DISTRIBUTORS AND END-USERS

EXPANDING PRODUCT AVAILABILITY WITH EFFICIENT, BULK PACKAGING SOLUTIONS FOR CRITICAL INDUSTRIES.

Canfield, OH — Canfield Connector, a leader in electronic connection and sensor technology, proudly announces the launch of their CAN-PAK Quick Ship Bulk Packs, a new offering designed to meet the immediate needs of distributors and their customers. This innovative bulk packaging solution includes the company's most popular products, such as the 5F and 5J series molded connectors, 5000 series strain relief solenoid valve DIN connectors, the rugged 7000 series cylinder proximity sensors, and the newly developed M12 CanFast round connectors.

The CAN-PAK program is a response to the growing demand for fast, reliable product availability in critical industries like automotive, agriculture, food and beverage, medical equipment, packaging, fluid power, and industrial automation. By offering these products in bulk packaging, Canfield Connector ensures shorter lead times, making it easier for distributors to maintain inventory levels and meet the urgent needs of their customers.

"Our CAN-PAK Quick Ship Bulk Packs are designed to provide immediate access to the high-quality products our customers rely on," said Todd Harmon, Vice President of Canfield Industries. "This program not only improves supply chain efficiency but also supports our distributors in offering better service to their end-users."

Each product in the CAN-PAK offering is manufactured under Canfield Connector's ISO 9001:2015 quality system, ensuring rigorous testing and reliable performance. The bulk packaging is available in quantities of 10, 25, and 100-piece lot sizes, depending on the product series, making it a versatile solution for distributors and end-users alike.

For more information on the CAN-PAK Quick Ship Bulk Packs and to view the complete list of available products, please contact Canfield Connector's Customer Service Department at customerservice@canfieldconnector.com or visit www.canfieldconnector.com.

About Canfield Connector

Canfield Connector manufactures innovative DIN and Deutsch type connectors, angle and position sensors, magnetic actuated sensors for the linear cylinder market, timers and other complimentary products for North American manufacturing-based industries. As an ISO 9001-certified company, Canfield Connector designs and manufactures high-quality, durable components in the United States. Canfield products are sold through authorized distribution centers or direct for industries such as OEM equipment manufacturing, construction, food processing, beverage distribution, chemical processing, agriculture, industrial automation and others, and can be customized to meet specific customer requirements.
