CANFIELD CONNECTOR LAUNCHES CANFLEX BULK WIRE OFFERING FOR CUSTOMIZED INDUSTRIAL APPLICATIONS

NEW BULK WIRE PLATFORM PROVIDES FLEXIBLE, HIGH-QUALITY WIRING SOLUTIONS TO MEET THE GROWING DEMANDS OF DISTRIBUTORS AND CUSTOMERS.

Canfield, OH — Canfield Connector, a division of Canfield Industries, Inc., proudly announces the launch of its CanFlex bulk wire offering. This new product line responds to increasing demand for high-quality, customizable bulk wire solutions, providing wires in cut-to-length sizes ranging from 50 feet to 5,000 feet. CanFlex wires, currently available in PVC with various gauge sizes, are ready to ship in any specified length.

The CanFlex line utilizes the same high-quality wire used in Canfield's industry-leading connectors and sensors, ensuring consistent performance across all applications. With UL approval for all available wire types, CanFlex meets the stringent quality standards that Canfield Connector's customers have come to trust.

"Our CanFlex Bulk Wire Offering is a direct response to the needs of our customers who require reliable, high-performance wiring for their industrial projects," said Todd Harmon, Vice President of Canfield Industries. "By offering our wires in flexible bulk options, we're providing a solution that is not only cost-effective but also ensures our customers have the materials they need, when they need them."

This new offering is particularly beneficial for industries such as OEM equipment manufacturing, industrial automation, and construction, where bulk wiring solutions are essential for large-scale projects. Distributors and end-users can now easily maintain inventory and respond quickly to project demands, all while benefiting from Canfield Connector's commitment to quality and innovation.

For availability and current pricing, customers are encouraged to contact Canfield Connector's Customer Service Department at customerservice@canfieldconnector.com or visit www.canfieldconnector.com.

About **Canfield Connector**

Canfield Connector manufactures innovative DIN and Deutsch type connectors, angle and position sensors, magnetic actuated sensors for the linear cylinder market, timers and other complimentary products for North American manufacturing-based industries. As an ISO 9001-certified company, Canfield Connector designs and manufactures high-quality, durable components in the United States. Canfield products are sold through authorized distribution centers or direct for industries such as OEM equipment manufacturing, construction, food processing, beverage distribution, chemical processing, agriculture, industrial automation and others, and can be customized to meet specific customer requirements.
